# Create a responsive web page with the following structure (10 points max):

1. You can use a CSS framework (e.g. Bootstrap) or create your own responsive CSS. (1 point)
2. Show menu as a hamburger icon if the page is displayed on a phone.   ☰   (1 point)
3. Put a logo (an image) inside the menu bar. (2 points)
4. Change the background color and font color of the menu bar. (1 point)
5. Create three or more different buttons inside card 1 (primary, warning, …). (1 point)
6. Use at least three bootstrap components (tooltip, popover, …) inside card 2. (2 points)
7. Create a responsive table with stripped rows and hover inside card 3. (2 points)

Design on a big display:

```
┌─────────────────────────────────────────────────────────────────┐
│  ┌─────────────────────────────────────────────────────────────┐ │
│  │ Menu Link1 Link2 Link3                                       │ │
│  └─────────────────────────────────────────────────────────────┘ │
│  ┌───────────────────────────────────────────┐ ┌───────────────┐ │
│  │ Main content                              │ │ Text          │ │
│  │  ┌─────────┐ ┌─────────┐ ┌─────────┐      │ │               │ │
│  │  │ Card 1  │ │ Card 2  │ │ Card 3  │      │ │               │ │
│  │  │         │ │         │ │         │      │ │               │ │
│  │  │         │ │         │ │         │      │ │               │ │
│  │  └─────────┘ └─────────┘ └─────────┘      │ │               │ │
│  │                                           │ │               │ │
│  └───────────────────────────────────────────┘ └───────────────┘ │
│  ┌─────────────────────────────────────────────────────────────┐ │
│  │ Footer                                                       │ │
│  └─────────────────────────────────────────────────────────────┘ │
└─────────────────────────────────────────────────────────────────┘
```
